- Locking cash drawer with 3 banknote and 6 coin compartments

- Drum printer for reliable heavy-duty use
- Bright, large-character LED display for easy viewing
- 8 pre-programmed departments
- 80 price look-ups (PLUs) for quick and accurate entry

XE-A107-BK

Compact Design with Built-In Convenience

With its low-profile design—under 20 centimeters high—the XE-A107-WH/BK is compact enough to be placed safely out of sight on a cash register rack. The front-locking cash drawer features three banknote compartments and a removable six-compartment coin tray. A slot accessible from the outside of the drawer provides a quick, safe way to put large banknotes and cheques into an under-tray storage area without having to open the drawer or lift the heavy coin tray. What's more, a multi-purpose tray on the outside—a handy new design feature—provides a convenient resting place for coins, banknotes and pens.

Bright LED Operator Display

Currency amounts are easy to read, thanks to the XE-A107-WH/BK's bright, clear LED operator display, which accommodates up to nine digits sized for easy viewing.

Key-Activated Mode Switch

For enhanced security, the XE-A107-WH/BK's operating mode can only be changed by inserting a key, ensuring that only the person entrusted with the key can change modes.

Fast and Accurate Price Entry

Equipped with 80 PLUs (price look-ups), the XE-A107-WH/BK makes entering pricing information easy. Simply enter the code for items being purchased to total up sales with accuracy and speed. Eight pre-programmed departments are also available for easy tracking and analysing of transactions by product type.

Heavy-Duty Drum Printer

With its reliable drum printer, the XE-A107-WH/BK can print out sales receipts, with up to 13 digits per line, on 58-mm-wide paper.
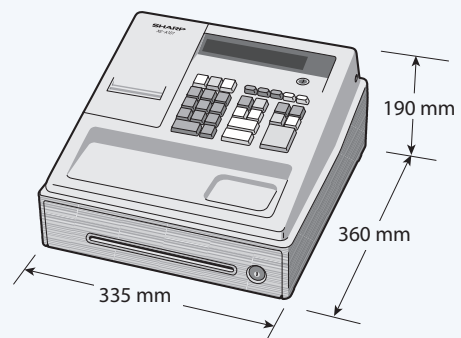

Other Features

- Automatic tax/VAT registration
- Currency exchange
- Error escape function
- Under-tray storage
- Spacious key layout and large function keys for smooth, efficient operation
