Opening Front Cover

Bottom

Paper Loading

1. Press the cover open button to open the front cover.

2. Remove the used roll paper core, if any.

3. In the correct direction of the roll paper, install the roll paper.

Thermosensitive layer

4. Pull out some roll paper, and close the front cover.

5. Tear off the roll paper.

⚠ Note: The views above are for your reference. Ports vary by your choice.

Connect the Power Supply

1. Turn off the printer power.
2. Plug in the cable connector of the AC adapter to the power connector at the rear of the printer.
3. Connect the power cord to the inlet of AC adapter, and insert the power cord plug into a suitable wall outlet.

2-5	Print density	Refer to table 6-2		OFF
2-6				OFF
2-7				OFF
2-8	Printing dots quantity	512	576	OFF

■ USB and Ethernet Interface

• DIP Switch 1

SW	Function	ON	OFF	Default
1-1	Automatic line feed	Enable	Disable	OFF
1-2~1-8	Reserved	--	--	OFF

Communication Parameters and Default Language Setting

1. Please refer to table 6-1 for Baud Rate Selection.
2. For ethernet interface card TCP/IP setting, please power on printer then connect to PC LAN port. Input `http://192.168.0.31` in PC browser and set (Default IP setting:192.168.0.31). Press and hold on the reset button in the interface card, then power on again to go back to the default setting.

3. The default language is English. Please select DIP switch 2 to choose the multi-languages.
