Epson TM-H6000V

Multifunction/Hybrid POS Printer

This integrated multifunction printer is capable of receipt printing, slip printing and cheque processing in one unit. The retail-hardened TM-H6000V offers both reliable and useful connectivity to business users while maintaining a very low total cost of ownership. It is ideal for businesses requiring cheque-processing facilities as point of sale and print receipts with the same unit.

- More productivity
- Reliable and efficient
- Full range of connectivity features
- Advanced print options that reduce paper usage
- Two-year warranty

Epson TM-H6000V

More productivity

Ideal for busy environments, the TM-H6000V offers a selection of features that help businesses boost overall efficiency. It prints at speeds up to 350mm/s, offers fast checque processing and a swift auto-cutter.

Reliable and efficient

In fast paced environments, it is essential to minimise downtime. The TM-H6000V is a dependable solution with the thermal printer now effective for printing up to 200km of receipts, while its auto-cutter is capable of three million cuts.

Range of connectivity features

The TM-H6000V is designed to handle all types of POS solutions with ease. It is flexible enough to adapt to the demands of modern retail environments including Server Direct Print (SDP) to print and display data from external servers, as well as multiple interfaces for tablet and PC coexistence.

Stay tuned with the trends in the POS Market

Looking for a future-proof printer that's simple and quick to set-up? ePOS-Print, ePOS-display and NFC tagging make it possible to incorporate new functionalities at the Point of Sale and allow quick tablet POS set-up.
