NEXA

The Nexa NE-510F is your ideal partner for use in hospitality environments, or anywhere that benefits a large 55 item keyboard and multi line operator display.

More than just a stand alone Cash Register, the NE-510F features the ability to work with up to 2 order printers, Barcode scanning and USB communications with it's own powerful, user friendly setup and reporting PC software.

The software application allows printing of keyboard layouts, running end of day reports, changing names and prices of items, backup of program in the register and more.

Nexa also have available a full range of Cash Registers, POS Terminals and POS peripherals if required, and have proudly been supplying the Australian market for more than 15 years.

Key Features

- 55 PLU Keys by default, can be increased to 60 by removing some function keys.
- Full PC comms via USB, with free, user friendly configuration utility.
- Supports Nexa barcode scanners (Serial Interface)
- Supports up to 2 external order printers
- 5 Line Operator Display
- Removable Cash Drawer
