PROPER

KIOSK01 Gen 2 Barcode Scanner

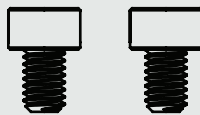

What is Included

1x Barcode Scanner

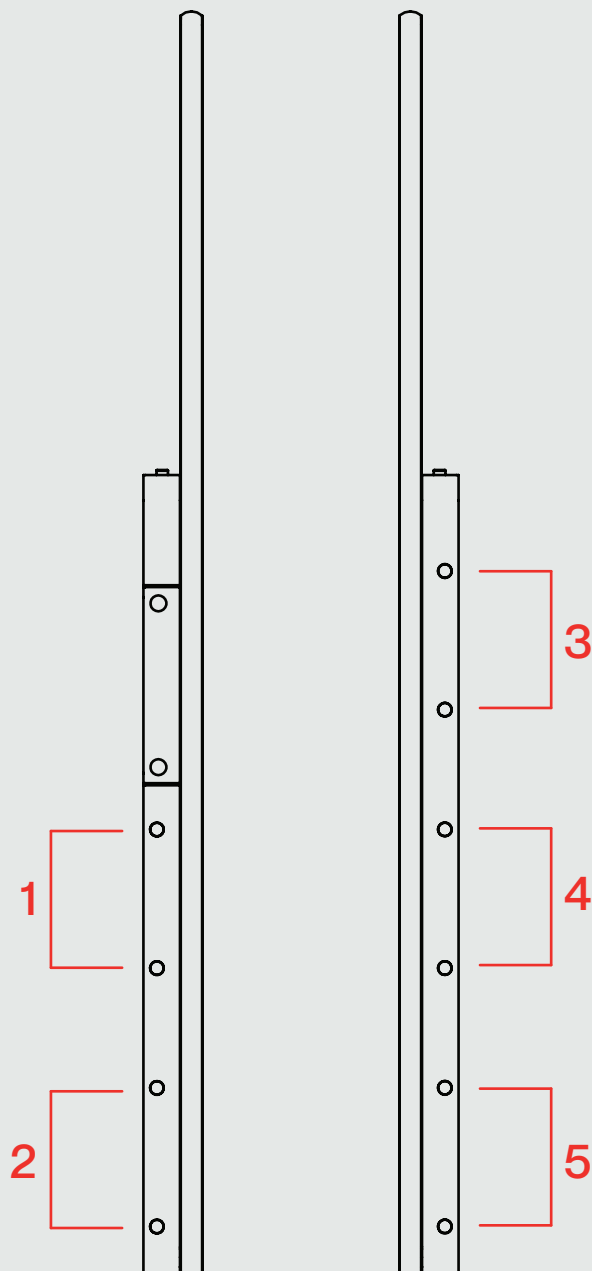

2x M4 Fasteners

Instructions

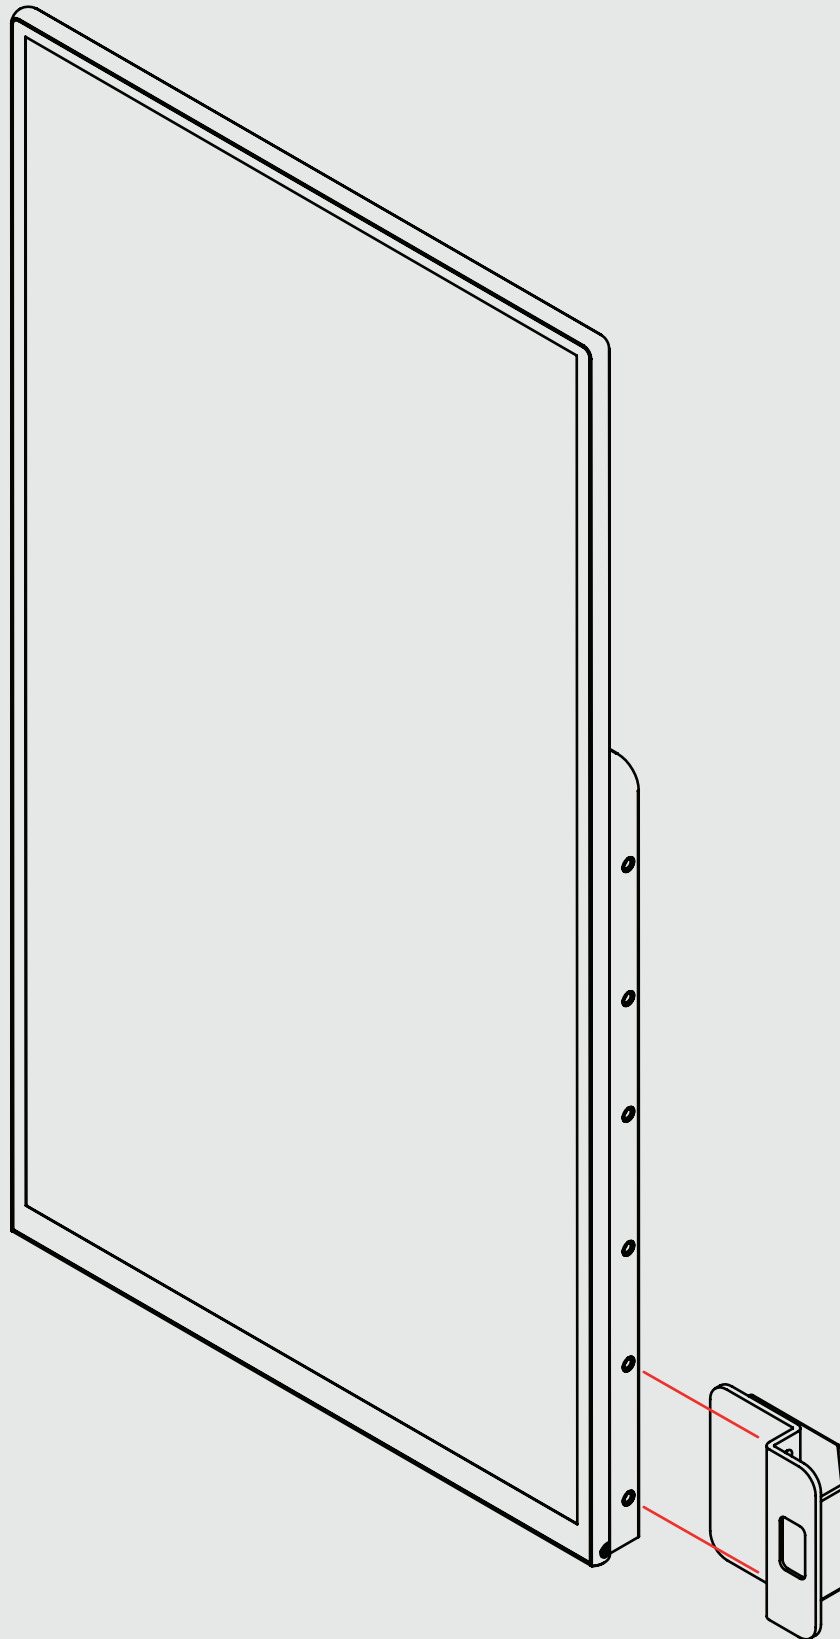

Step 1:

Locate 2 adjacent mounting holes on any of the 5 marked locations for your barcode scanner placement

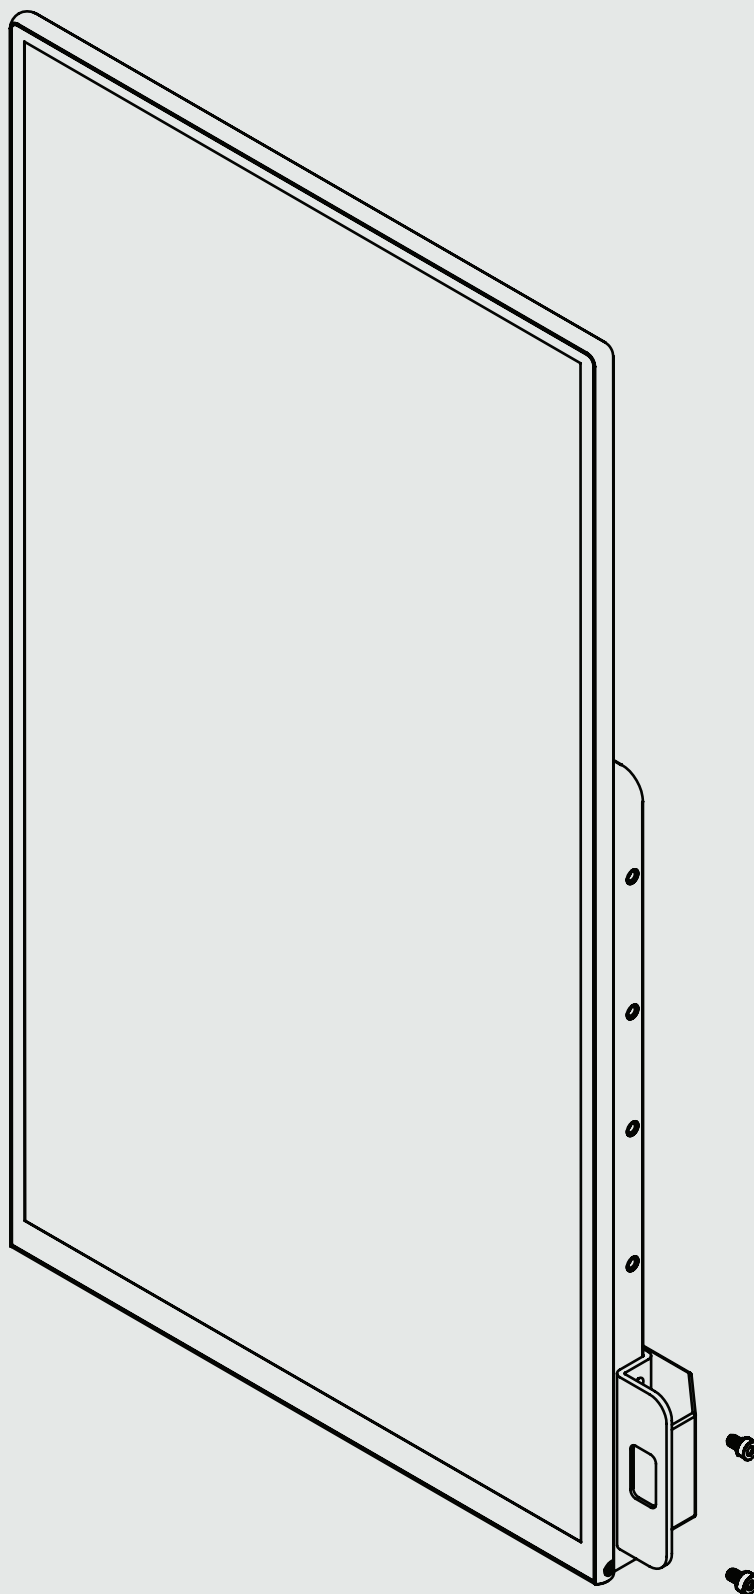

Step 2:

After choosing the location, place the barcode scanner on to the side of the KIOSK01 (facing forwards) and align the holes in the scanner with the chosen holes on the KIOSK01

Step 3:

Using the included M4 fasteners and tool, secure the barcode scanner. Tighten fasteners until finger tight.

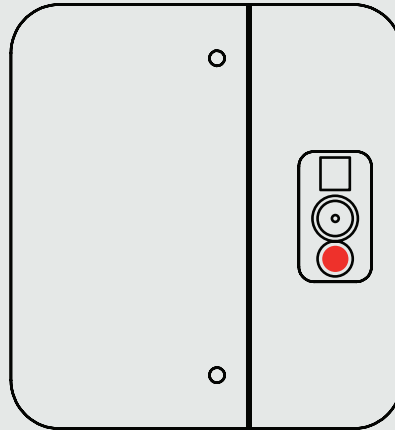

Step 4:

After plugging in the USB cable into the KIOSK01 and powering up the scanner, scan the following QR code using the scanner to enable Keyboard Mode.

Keyboard Mode

Step 5:

Scan the various QR codes below to change the mode of the red and white LEDs in the scanner.

White LED: Floodlight

Scanner
