

KIOSK01 (gen 2)

PROPER

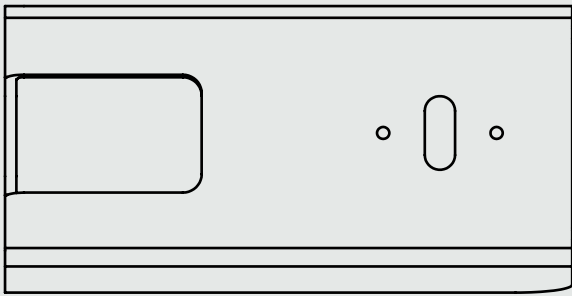

Terminal Arm

User Guide

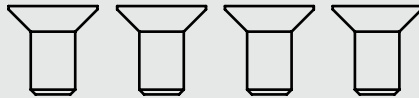

What is Included

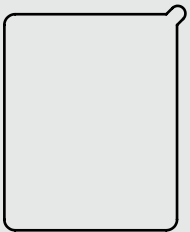

1x Terminal Arm

4x M4 Fasteners

1x Terminal Adhesive

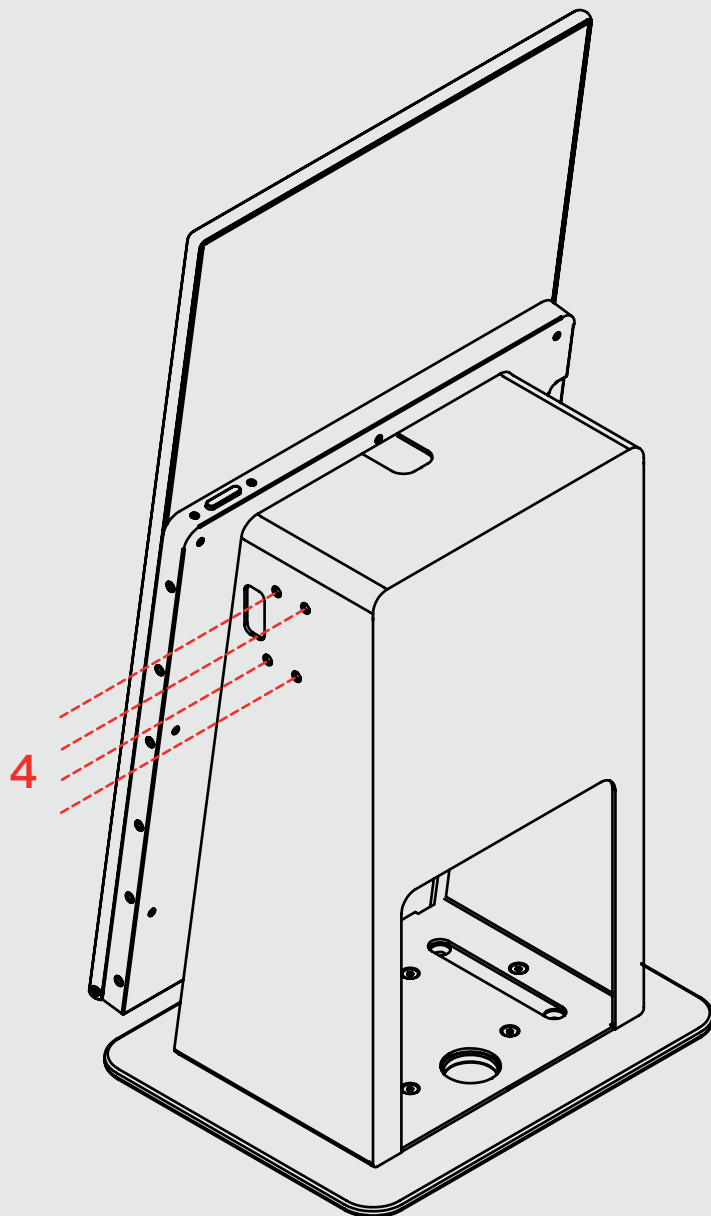

Instructions

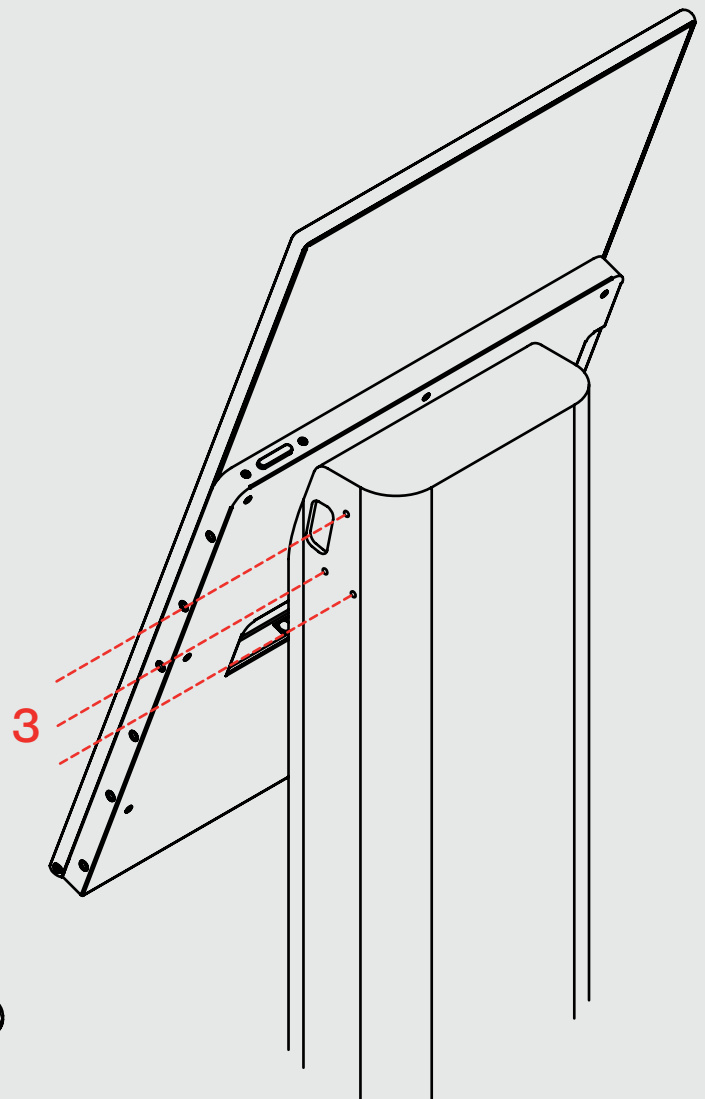

Step 1:

Locate the 4 fastening points on your chosen Floor Stand or Countertop Stand as shown in the drawings below.

Countertop Stand

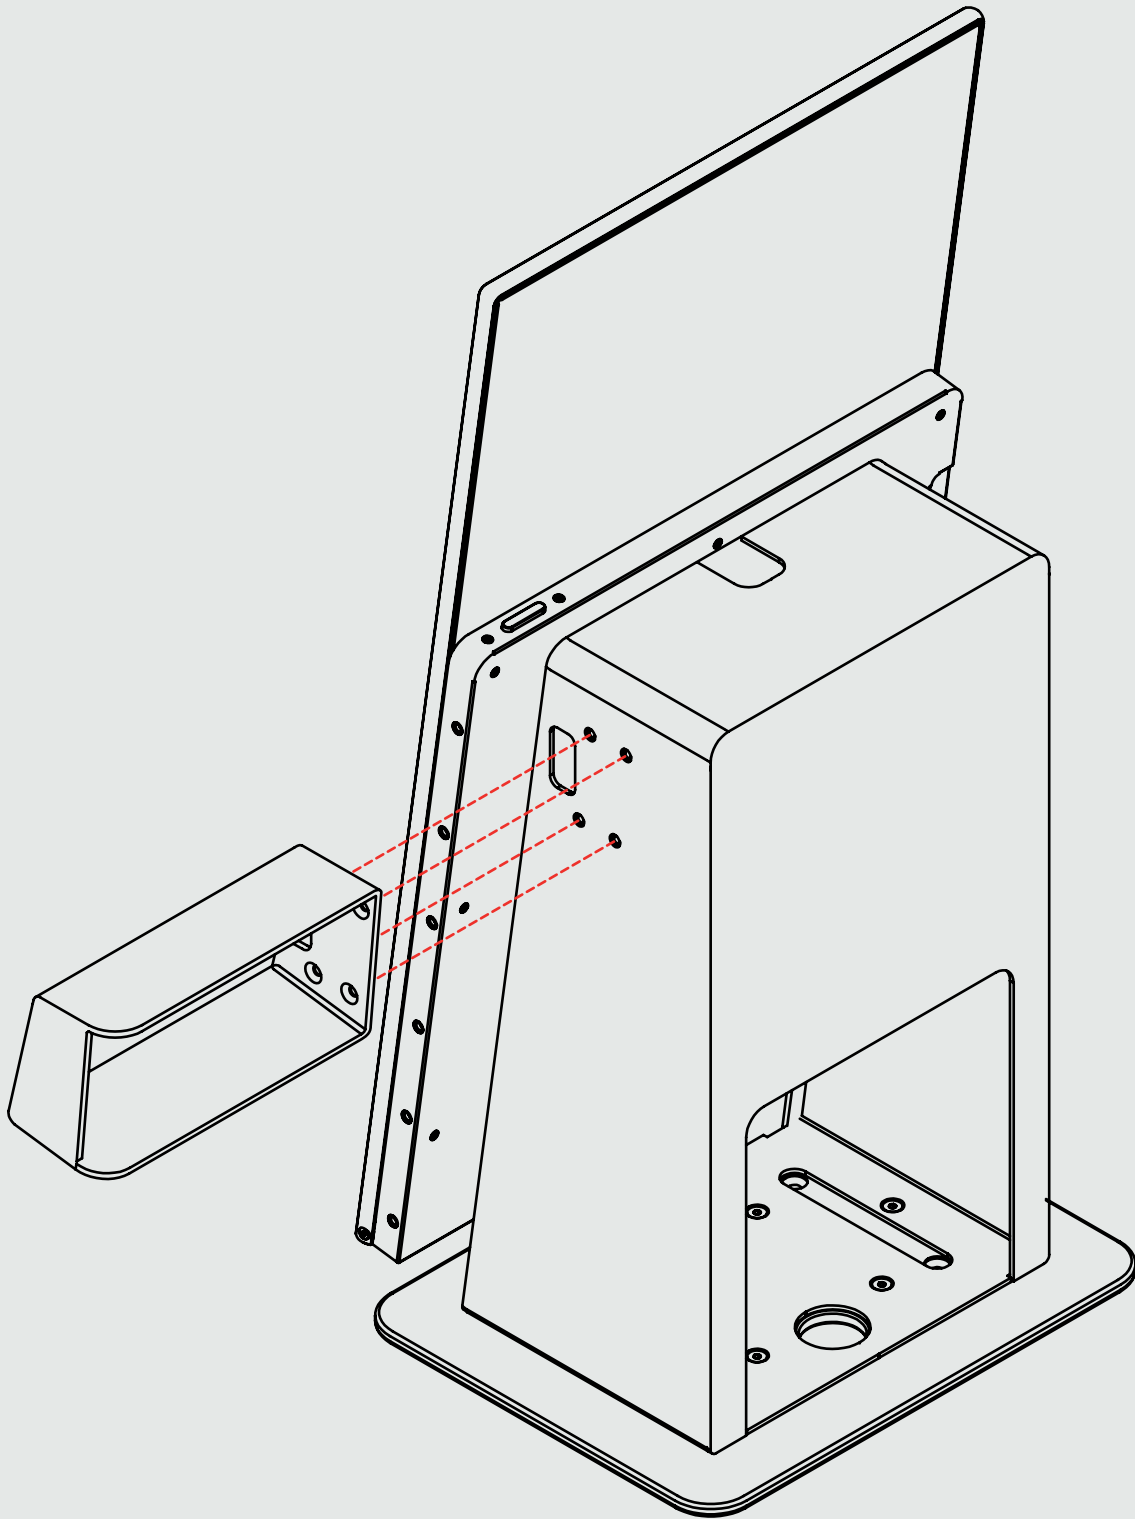

Floor Stand

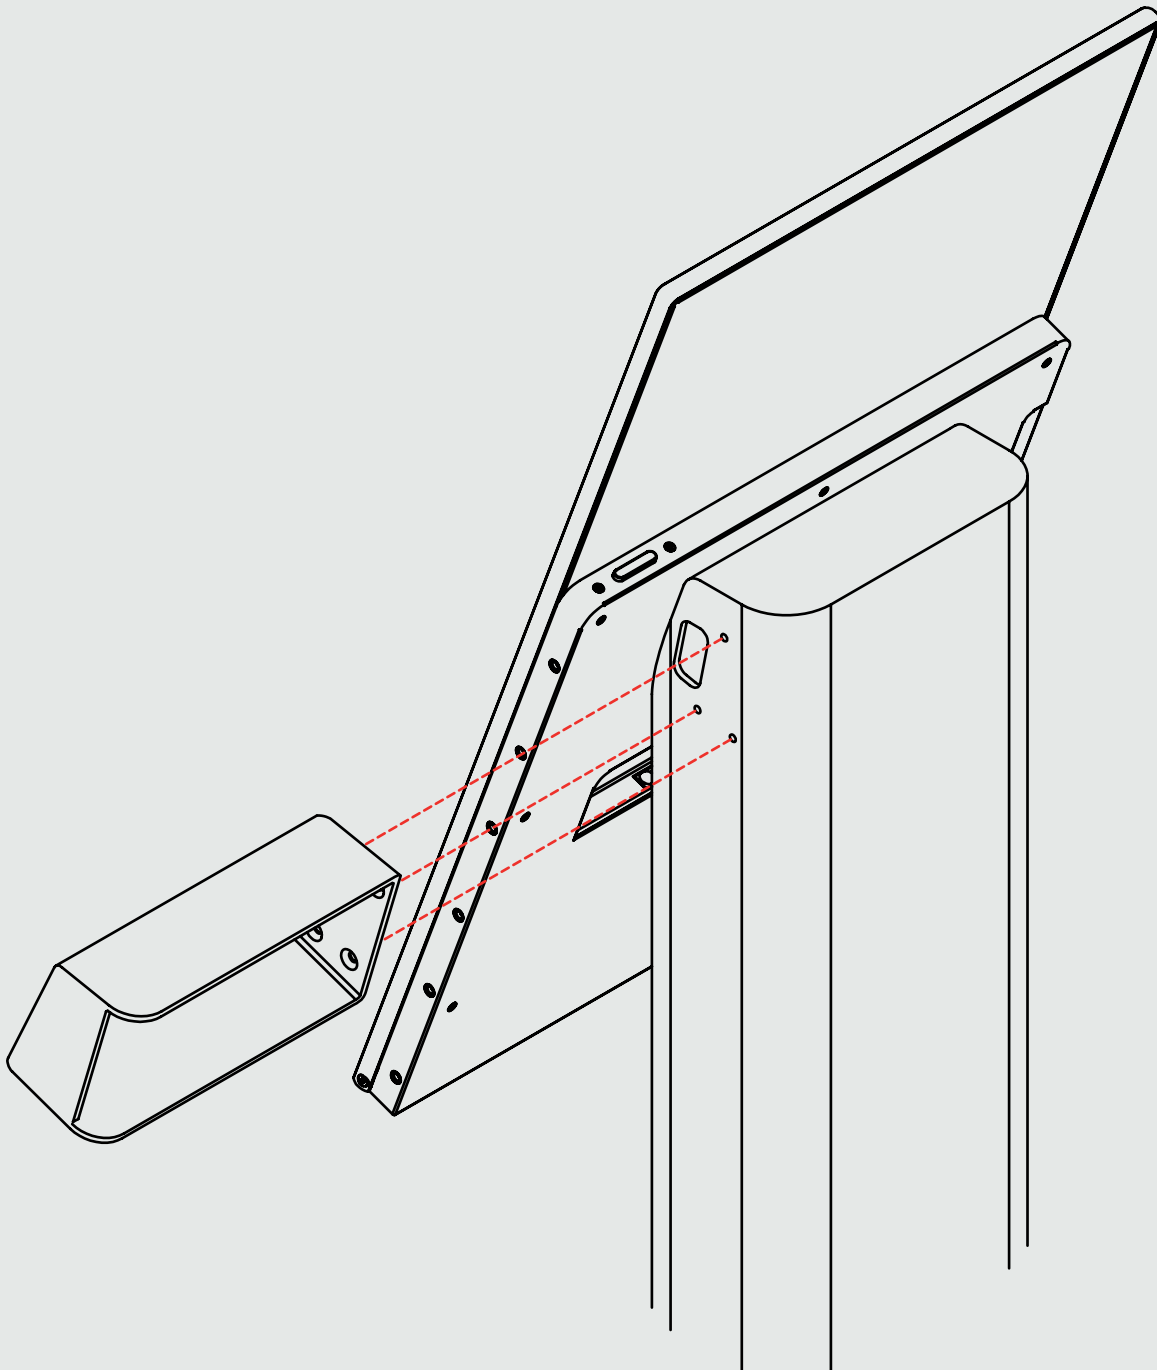

Step 2:

Place the Terminal Arm next to the fastening points as shown below, aligning the holes of the terminal arm with the points on the chosen base.

Countertop Stand

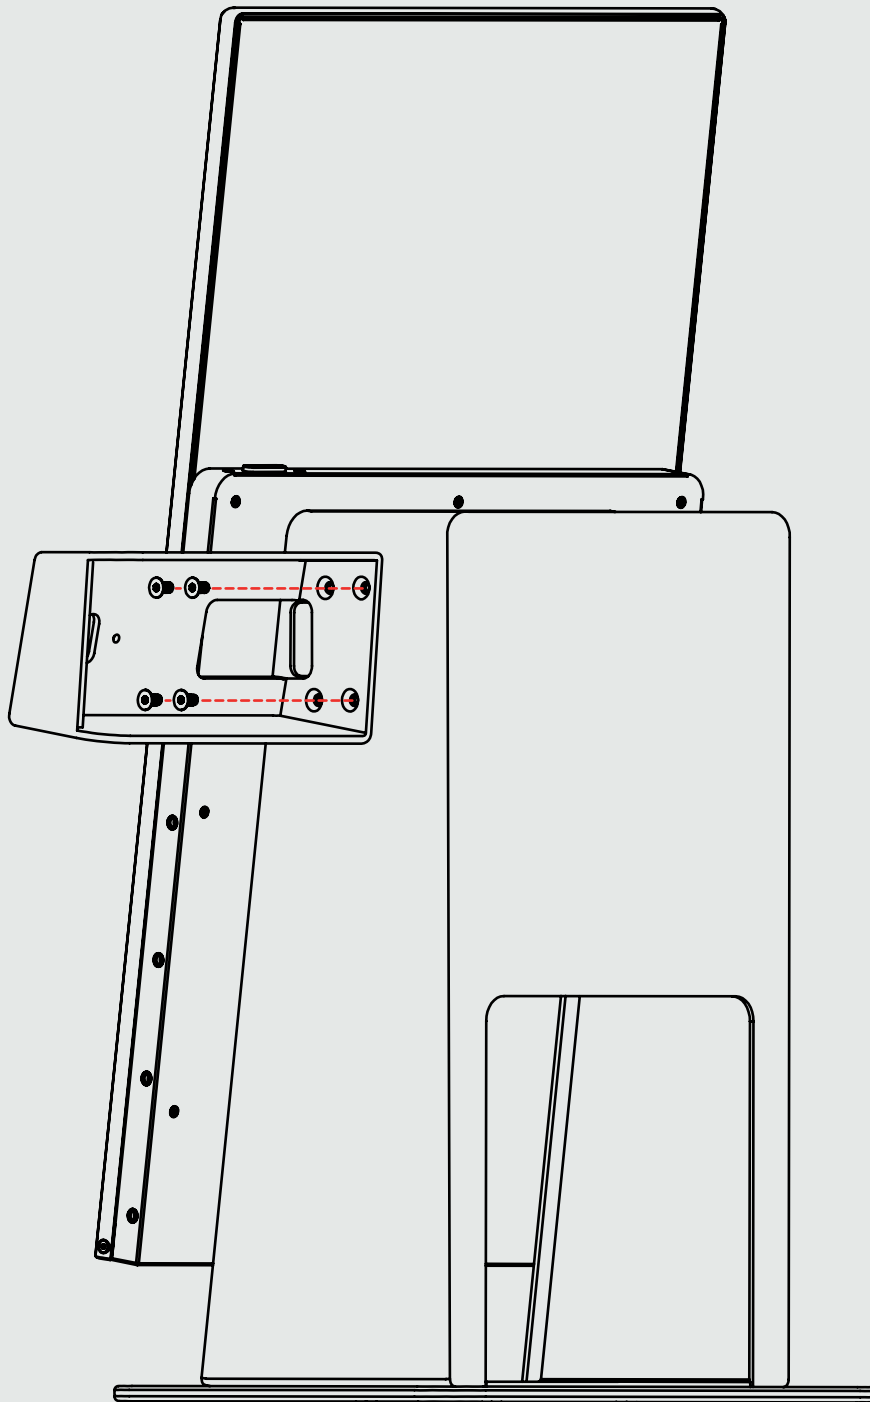

Floor Stand

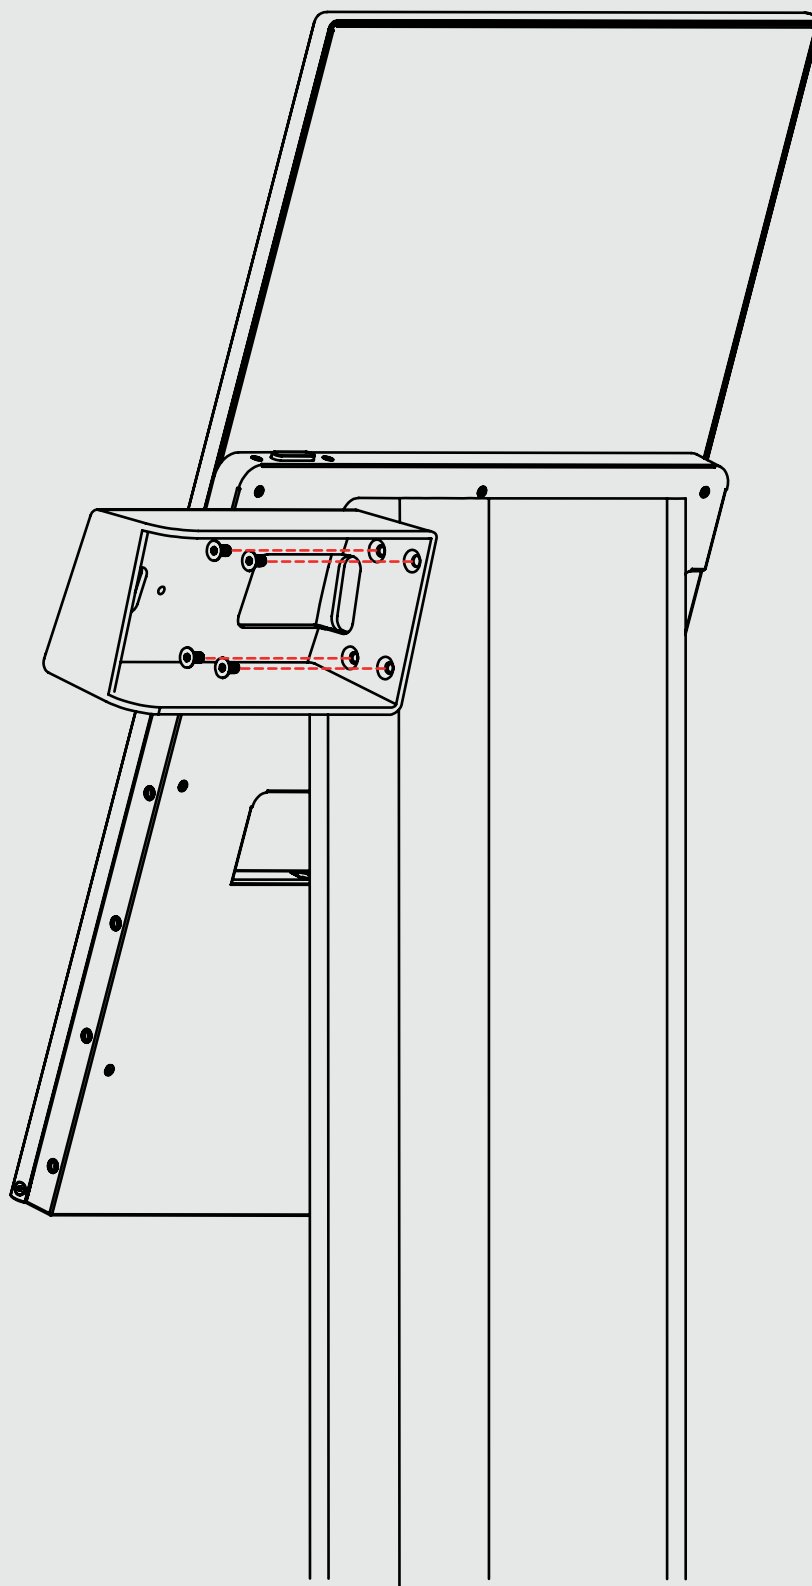

Step 3:

Using the included M4 fasteners, fasten the Terminal Arm to the chosen base. Tighten fasteners until finger tight.

Countertop Stand

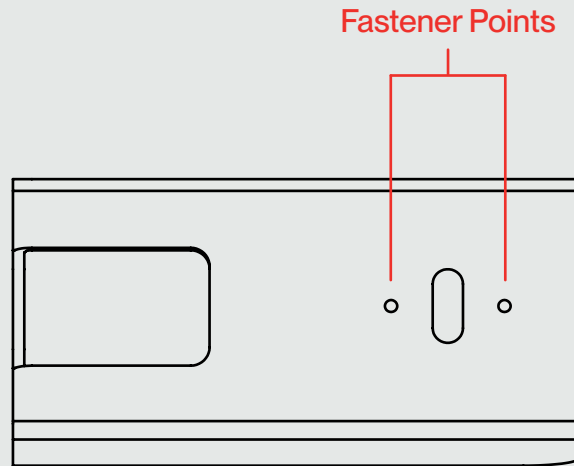

Floor Stand

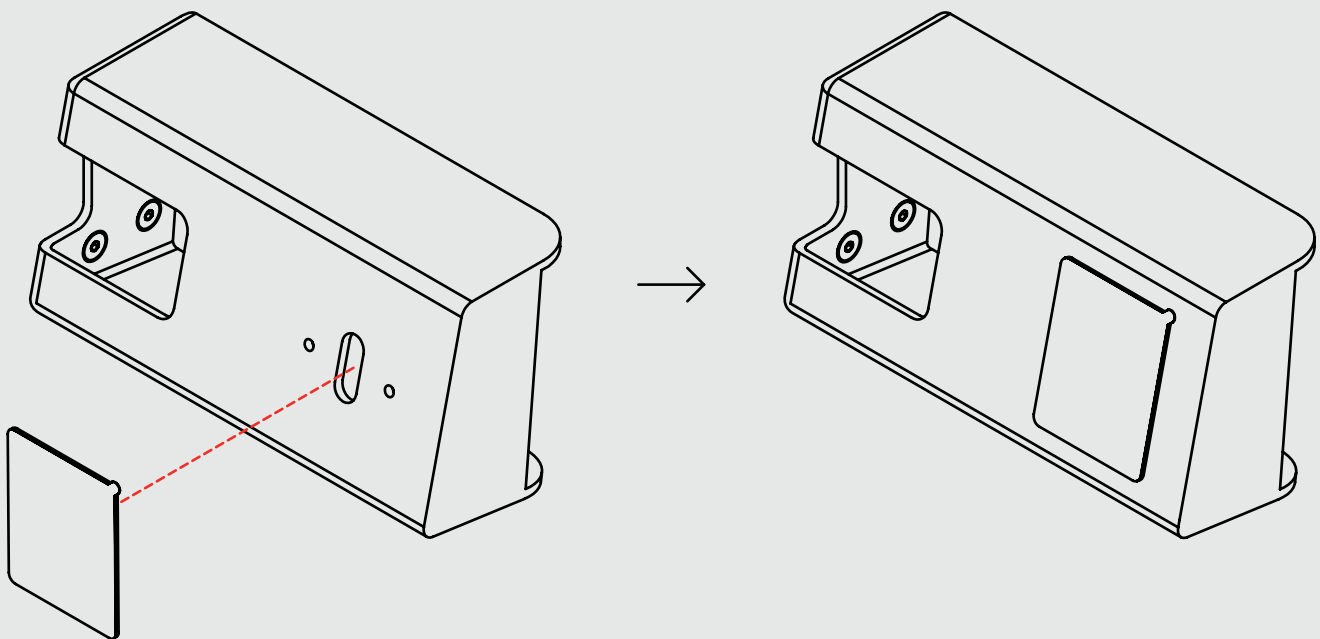

Step 4:

If your chosen terminal has the common two point mounting mechanism, use the two mount holes marked below to fasten your device onto the Terminal Arm.

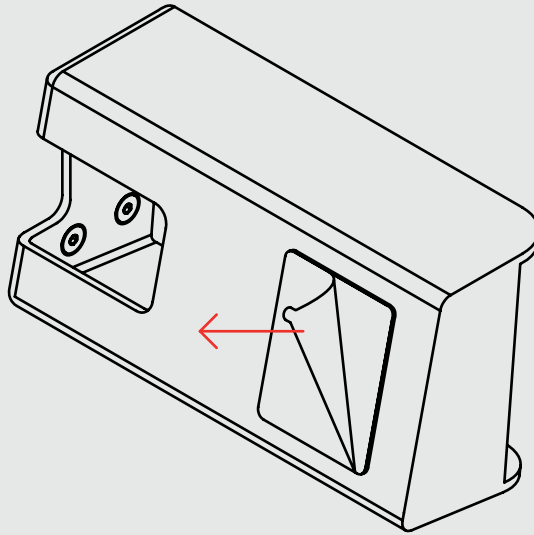

**Step 5:**

If your chosen terminal does not have these fastening points, gently peel off one of adhesive films, align the adhesive as shown below and carefully place onto the Terminal Arm surface.

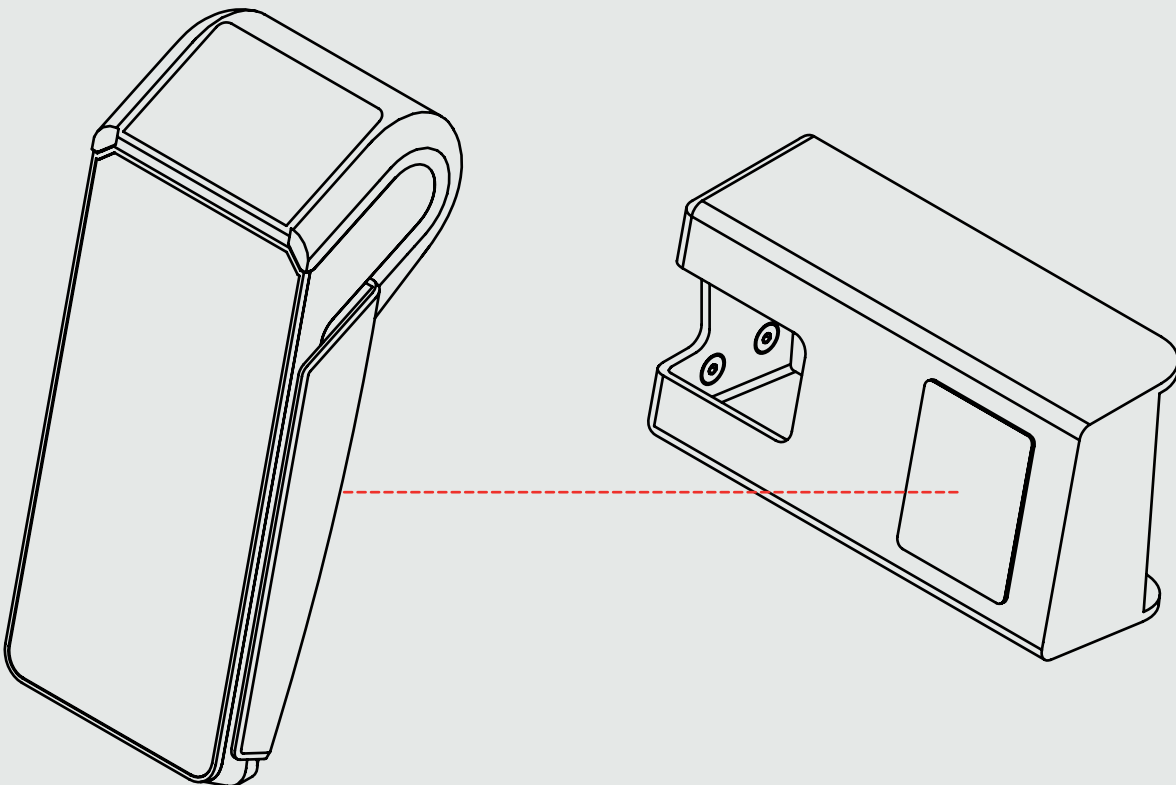

Step 6:

Once adhesive has been stuck on to the Terminal Arm, gently remove the other adhesive film using the pull tab.

**Step 7:**

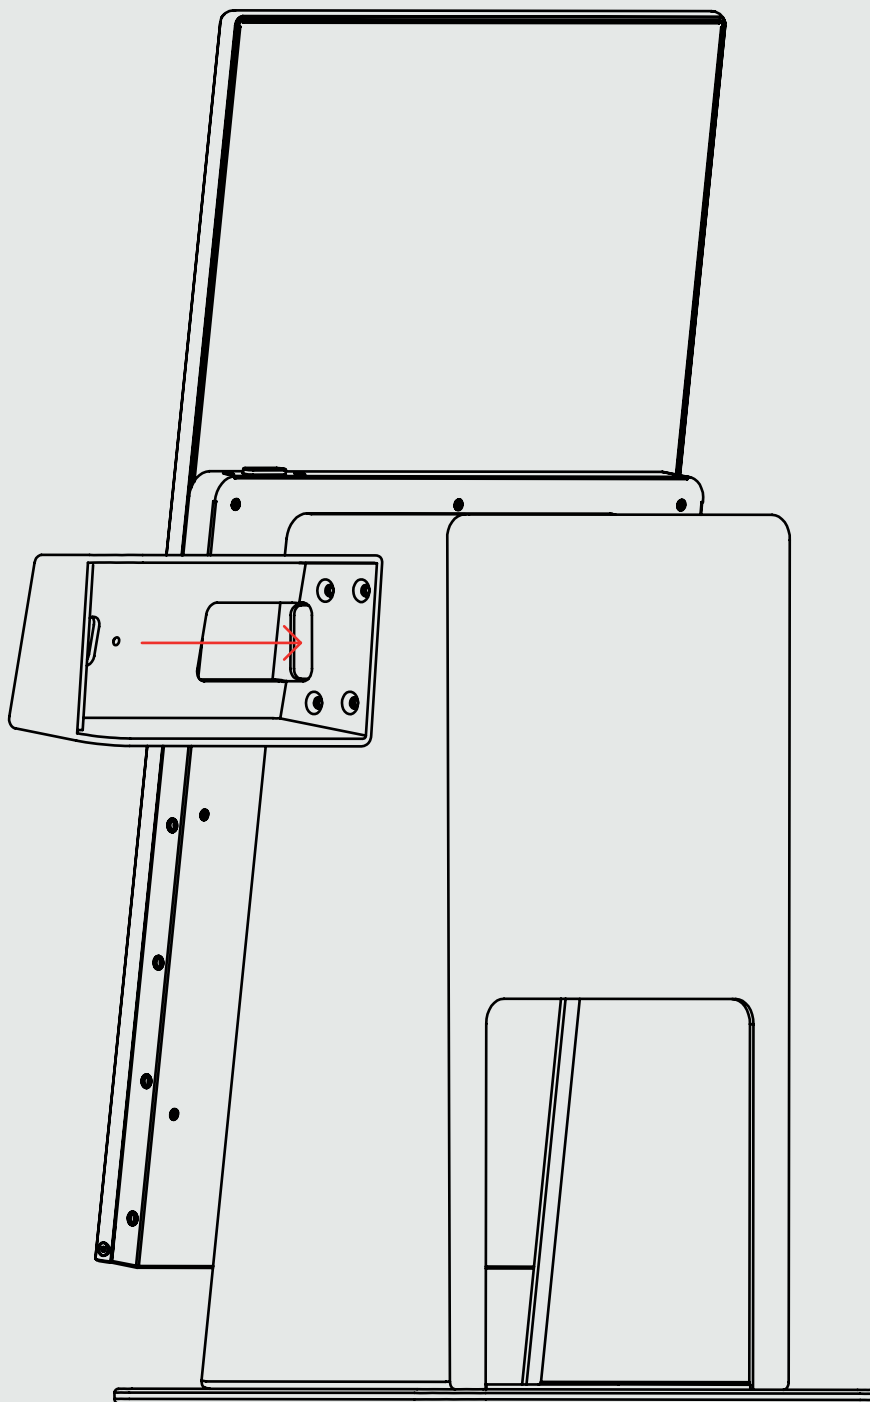

Finally, carefully align and place the chosen terminal on to the sticky surface. Apply steady pressure for 20-30 seconds to ensure a strong bond.

Step 8:

For routing cables cleanly, use the opening marked in the drawings below.
